

Major Classes:

- PyCameWindowView
 - Init
 - draw
- Dot_model
 - Init
 - Update
 - _str_
- Dot_big
 - Inheritance of Dot
 - Init
 - _str_
 - Gradation
- Dot_small
 - Inheritance of Dot
 - Init
 - _str_
- Mouse
 - Init
 - Update
 - _str_
- MouseController
 - Init
 - Handle Event

Plan:

- Mark will implement basic user interface
 - Create a Dot class
- Hyegi collect organize movie data
 - Create a Dot_big - color gradient, intensity, graduation
- Together develop the zoom in and overall UI
- Stretch - integrate gross revenue - size of the dot

No plan on using a library as of now, but possible to implement color and gradient from matplotlib.
